

## Current March 2016 Angus Embryo List

Embryos are all collected and frozen by Cross Country Genetics, Westmoreland, Kansas.

- AI certificates are not provided.
- **Any combination** order of 5 embryos or more, shipping is free.
  - 10% discount on **10 embryos or more.**

<u>Dam Registration #</u>	<u>Dam Tattoo</u>	<u>Sire</u>	<u># of Embryos</u>	<u>\$Price Each</u>
17540653	2236	GDAR Game Day	6	\$300/each
➤ 2236- A real nice moderate framed, nice uddered female. Deep ribbed. Out of the Donna Family! This should be an excellent mating with Game Day as the sire.				
17540687	2271	Gardens Wave	12	\$400/each
➤ 2271- Several generations of calving ease. Same family as Finks 5522-6148. Six generations of females flushed in this family. Wave semen is extremely rare.				
17540652	2235	GDAR Game Day	6	\$300/each
➤ 2235- Long bodied, deep ribbed female. Another “Donna”. Solid bulls-many generations! Game Day semen is in short supply also				
17540682	2266	Final Answer	8	\$300/each
➤ 2266- Beautiful 6106 daughter. Perfect udder, good feet, deep ribbed, etc. “Miss” Family. The great great grand dam of this female is responsible for all of the Northern Miss success at Dameron Angus.				
17540671	2254	SAV Resource	3	\$300/each
➤ 2254- Beautiful udder and feet. The grand dam was one of our best 5522 daughters. With Resource as the sire this should be an interesting cross.				
17818735	3400	SAV Resource 1441	6	\$600/each
➤ Forever Lady Family. The grandam is a full sister to Boyd New Day and greatdam is “57D”. This is a rare mating of proven genetics that represent true growth and power.				
17806472	3379	Gardens Wave	9	\$500/each
➤ Wave semen recently sold for \$250/straw. Total unique sire that is “tomorrows” bull. At some point many breeders will realize that adding minus \$EN big time, and constantly increasing mature cow weights may not be the maternal influence that Angus bring to the table. Interesting tabulation here of <b>proven</b> sires.				
17805716	3356	Gardens Wave	10	\$500/each

- Try to find a pedigree like this anywhere! Study the generations of proven genetics, plus unique ones! Certainly not terminal genetics in this program.
- 

17805748                      3408                      SAV Renown 3439                      9                      \$600/each

- Beautiful first calf heifer that is really cranking her first calf. Great feet, udder, attitude and a cow. From the famous Northern Miss family, that is noted for mass, volume, maternal and carcass. Very few, if any, Renown embryos available.
- 

17805717                      3357                      Emulation N Bar 5522                      5                      \$700/each

- Incredible genetics in a great female! Try finding genetics for all around cows, longevity, mature cow weight, udders and beautiful feet. It will not be long before those traits are just as important as EPD's?!
- 

17806465                      3372                      Gardens Wave                      7                      \$450/each

- Cows here, like many of the mating's we offer. Breeding EPD's is fine, we use them also, to breed cattle, not too just create numbers. We believe EPD's when accuracies' are high. Have you ever noticed how many great young bulls seem to disappear after two years?
-

---

## **Various Angus Embryos, Current as of March 2016**

Embryos are all collected and frozen by Cross Country Genetics, Westmoreland, Kansas.

No AI certificates provided.

The following are various mating's that we have as extras. Most of these mating's have had full siblings implanted. But these were extras due to a number of recipients at a certain time, etc. We like to put in groups of full siblings at one time. As stated earlier these are extras, we have not used and are available for purchase.

- \$225/each embryo with your pick of embryo(s)
- Twenty or more embryos, \$180/each embryo.
